

ENTERPRISE IMPACT PHILANTHROPY ADVISOR GROUP

ADVISORY FIRMS

In today's shifting wealth landscape, clients want more than investment performance—they want advisors who understand their values, legacy goals, and desire to make a difference.

WHAT IS THE ENTERPRISE IPA GROUP?

The **Enterprise IPA** is a cohort-based learning experience designed for professionals and groups within the wealth advisory sector. Whether you're looking to expand your firm's philanthropic planning capabilities or build a more cohesive approach across advisors, this program helps you elevate your value proposition and client impact.

Firms that invest in the Enterprise IPA group gain:

- A shared language and framework for values-based planning and giving.
- Deeper client relationships across generations and philanthropic interests.
- Stronger team alignment on impact-driven advisory strategies.
- A competitive edge in attracting purpose-driven clients.
- Greater confidence navigating complex giving conversations.

Join a growing movement of forward-thinking firms redefining what it means to advise with purpose.

“

IPA expands the traditional definition of philanthropy beyond what we typically describe as a “contribution” of assets. It includes practical tools that enable advisors to better design and implement a strategy to attain a broader social impact for their clients' comprehensive philanthropic efforts.
